# Performance Based Management (PCARSS Focus)

## Strategic Goal Alignment

- **GOAL 3: Improved Support to Acquisition Lifecycle Processes**
  - 3.1: Create a customer focused performance-based tool that promotes visibility of Government owned assets and increase reutilization.
- **Outcomes**

  The web based data entry and standards screens will improve response time, increase availability to other DoD/Federal screeners, improve user efficiency and will be a better management tool.

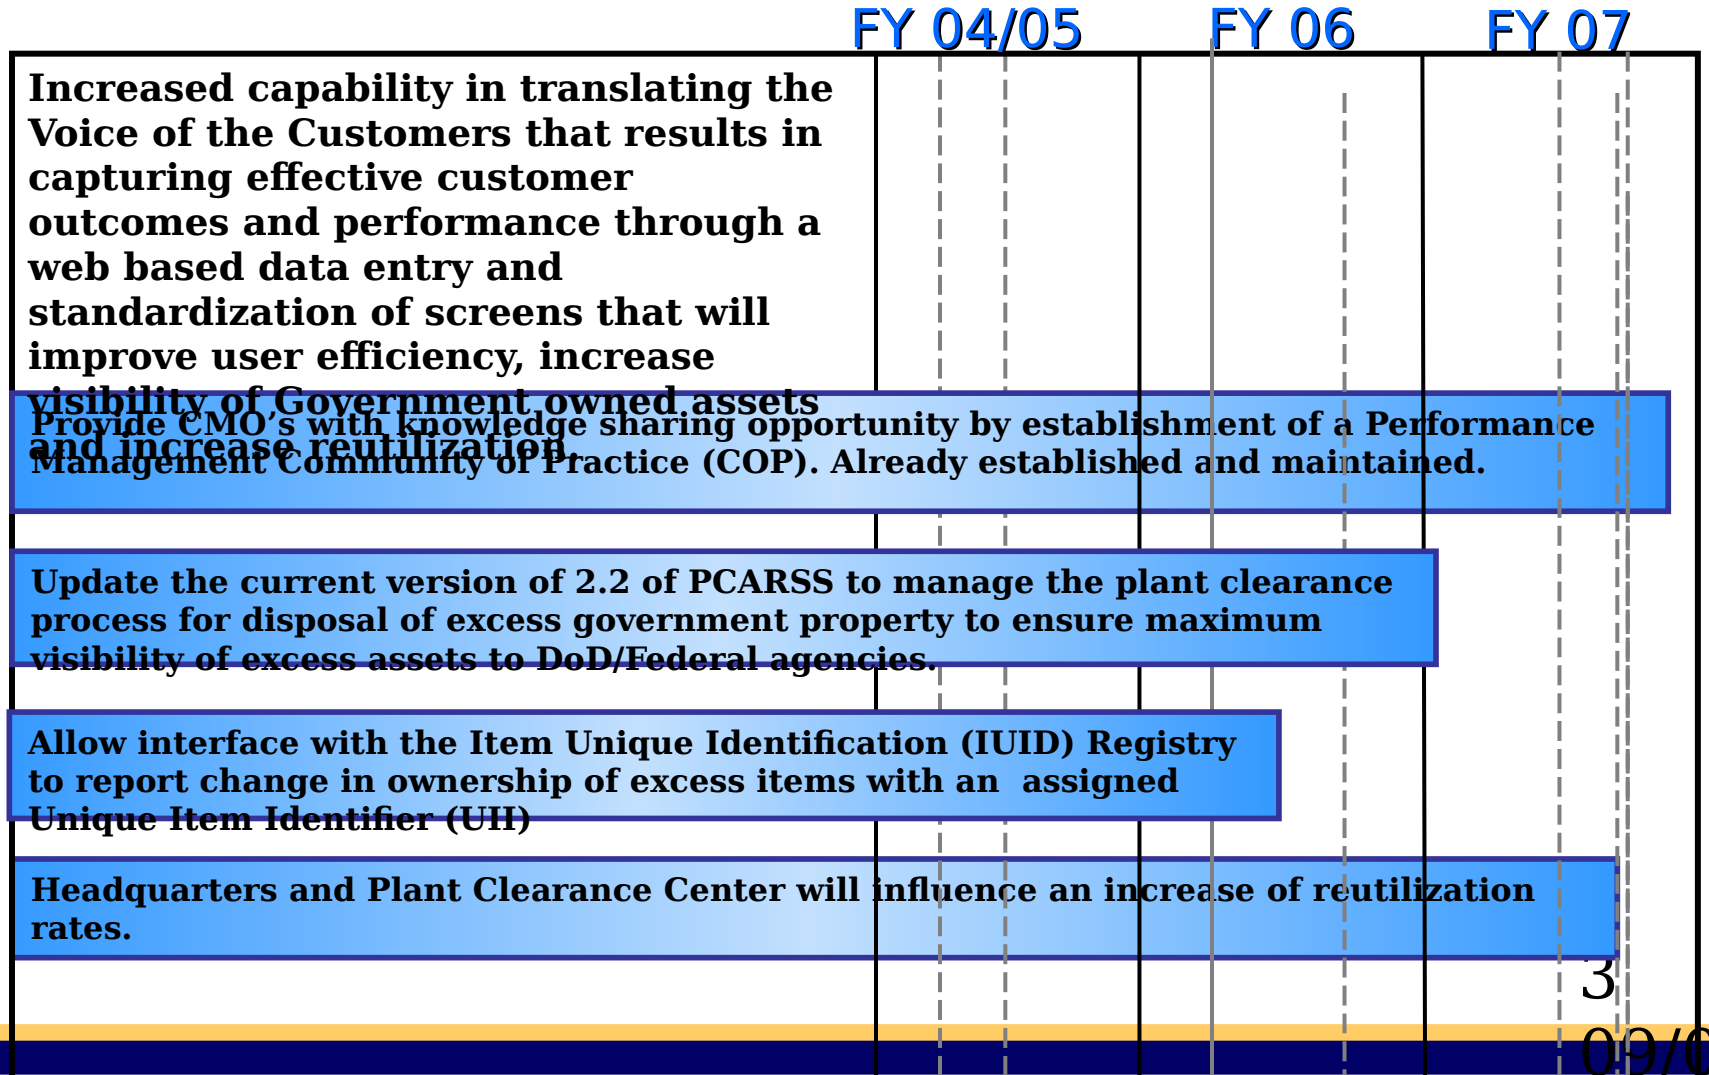
- **Outcomes measures**

  New features will enhance visibility to customers, increase reutilization and improve productivity.

# Performance Based Management (PCARSS Focus)

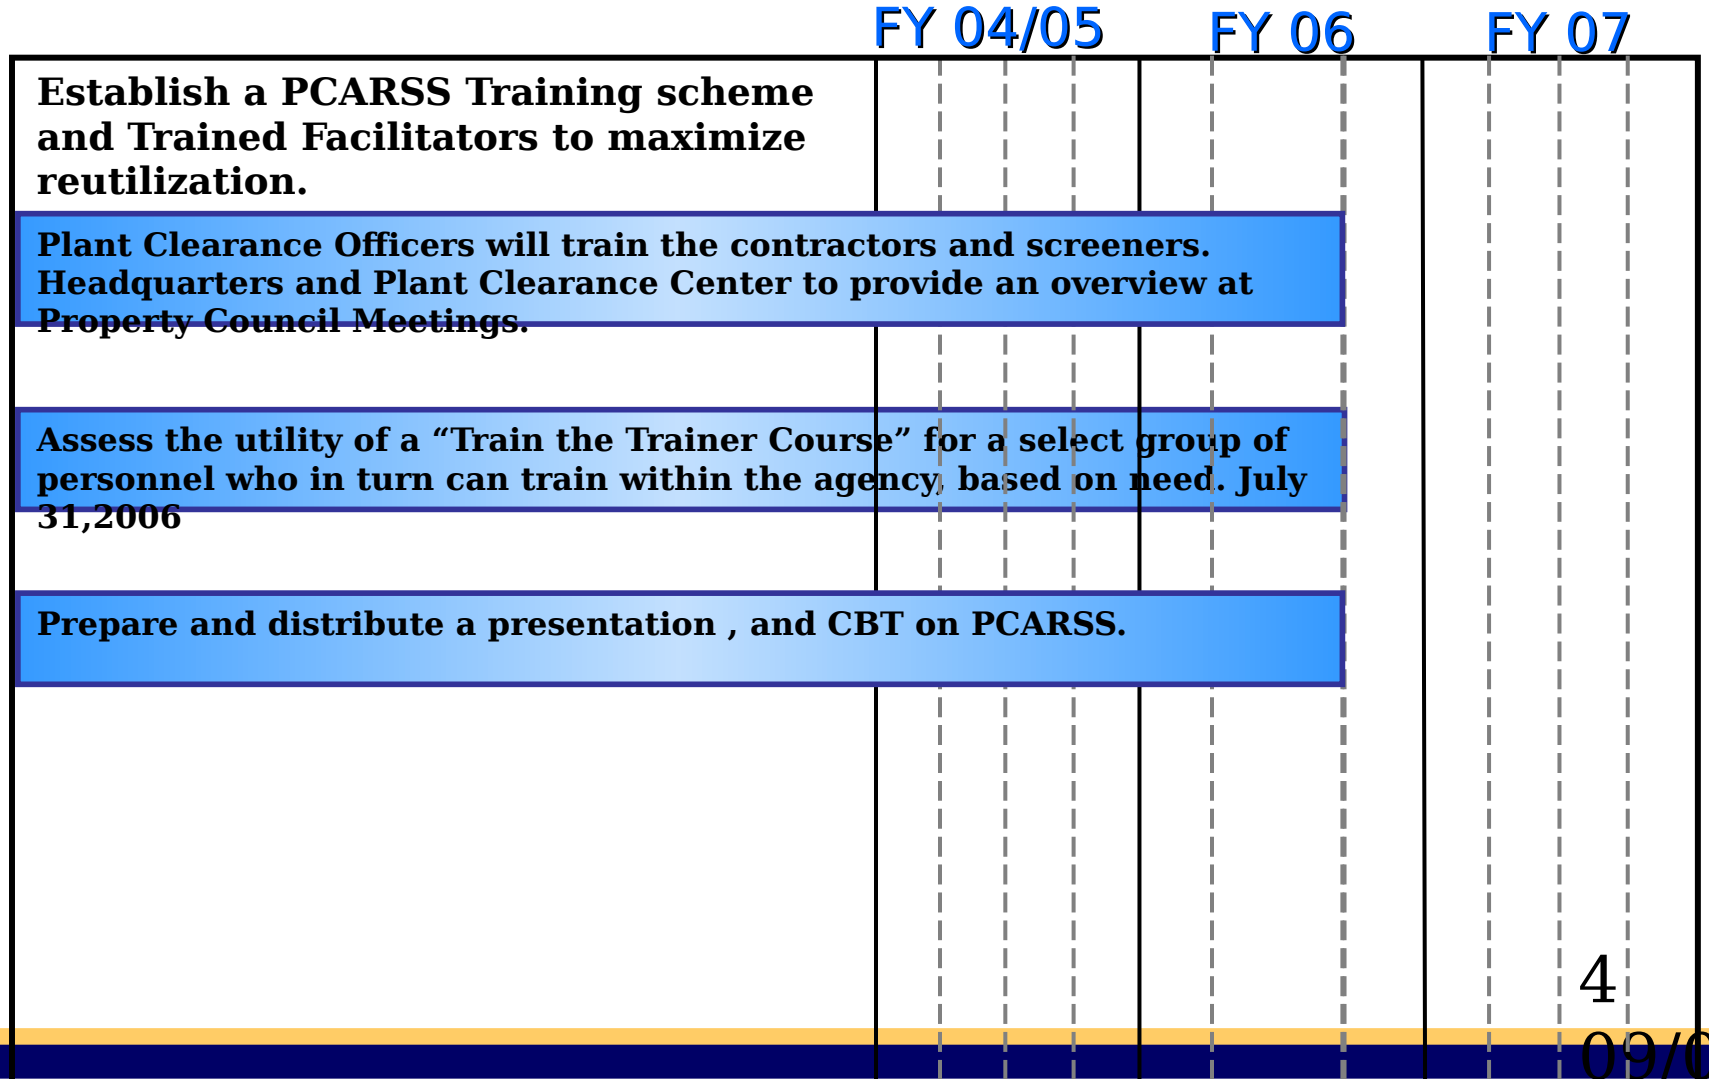
- **Execution strategy**
- PCARSS will be updated not later than the fourth quarter of FY 06 to allow for timely interface with the IUID Registry.
- Headquarters and Plant Clearance Center will develop a plan to influence the increase of reutilization rates.
- Establish Plant Clearance Training scheme to maximize reutilization.
- Plant Clearance Officers will train the contractors and screeners.
- Headquarters and Plant Clearance Center will develop a CBT.
- Provide an overview of PCARSS at Contractor Property Council Meetings.
- Create Criteria for evaluation of CMOs (Outcomes and Measures)

# Performance Based Management (PCARSS Focus)



FY 04/05
FY 06
FY 07
Increased capability in translating the Voice of the Customers that results in capturing effective customer outcomes and performance through a web based data entry and standardization of screens that will improve user efficiency, increase visibility of Government owned assets and increase reutilization.
Provide CMO's with knowledge sharing opportunity by establishment of a Performance Management Community of Practice (COP). Already established and maintained.
Update the current version of 2.2 of PCARSS to manage the plant clearance process for disposal of excess government property to ensure maximum visibility of excess assets to DoD/Federal agencies.
Allow interface with the Item Unique Identification (IUID) Registry to report change in ownership of excess items with an assigned Unique Item Identifier (UII)
Headquarters and Plant Clearance Center will influence an increase of reutilization rates.

# Performance Based Management (PCARSS Focus)



FY 04/05
FY 06
FY 07
Establish a PCARSS Training scheme and Trained Facilitators to maximize reutilization.
Plant Clearance Officers will train the contractors and screeners. Headquarters and Plant Clearance Center to provide an overview at Property Council Meetings.
Assess the utility of a "Train the Trainer Course" for a select group of personnel who in turn can train within the agency, based on need. July 31,2006
Prepare and distribute a presentation , and CBT on PCARSS.
